

Contact Information

Company	Project
Name, first name	Tel.
Email	

Power supply

18 to 36 VDC to amplifier	85 to 265 VAC (with power supply, accessory)
5 VDC, highly stable to force sensors	10 VDC to force sensors

Number of Channels (number of force sensors)

1-channel (1 or 2)	2-channel (1 to 4)
2-channel, separate processing for left/right	

Outputs

0 to 10 V	0/4 to 20 mA
Relay outputs	Digital outputs

Fieldbus-, Ethernet interface

PROFINET	EtherNet/IP
EtherCAT	Profibus

Housing and installation Options

W - wall mount with increased protectin rating	R - DIN-rail mount, top hat rail
S - Panel mount, integrated	

Display, operation

LCD with / without backlight on the device	operation directly on the device required
Operation, display via tablet, smartphone	

Typical Examples

EMGZ 310 DIN-rail mount	EMGZ 309.EIP.R DIN-rail mount	EMGZ 321.S panel integrated mount	EMGZ 492.R DIN-rail mount
